FAITH COMMUNITY NURSING

Topic: American Heart Month

February is American Heart Month. The leading cause of death in the United States and worldwide, Heart disease affects all of us or someone we love. Use this month to refresh your knowledge of heart risk factors and take a step toward heart health by moving more, addressing use of heart-risk-increasing substances such as alcohol and tobacco, and checking your weight and blood pressure to see if these could be improved to protect your heart. More information on heart health can be found at the link below.

C-U VENERABLE FULTON SHEEN GUILD**Catholic Healthcare at the End of Life: How Much Is Too Much?**

Presentation on March 1st, at 10 am, at the U of I Newman Center, Lewis Lounge. Presented by Dr. J. R. Hoffman

As a Hospital Medicine physician, Dr. Hoffman ministers at the bedside of countless patients, at times meeting at the brink of death, guiding patients and their families through the myriad of challenging decisions faced as they, or their loved one, takes a final breath. The world proposes that this end is entirely determined by our individual wishes - we define our existence and therefore our end. Holy Mother Church, inspired by the Holy Spirit, promulgates an entirely counter-cultural worldview: we are created in the image and likeness of our Creator, out of love, with a purpose, and there is deep meaning to be found at the end of life - in how we face death ourselves, and how we care for the dying. All are welcome to join. Light refreshments will be provided.
