FAITH COMMUNITY HEALTH

Topic: Fall Prevention Awareness

Falls are the leading cause of accidental death/disability in elderly Americans. Join others encouraging safety measures and initiatives to address and decrease the incidence of falls here:

<https://www.ncoa.org/article/about-the-falls-free-initiative/>

Tips for lowering fall risk:

- Exercise to improve strength & balance
- Remove tripping hazards around the home environment
- Assistive devices (grab bars, raised toilet seat, shower chair, walkers, canes, and well-fitting shoes with no-slip, rubber treads)
- Annual health screening
- Annual eye & hearing check
- Get help to avoid unnecessary risks

Community Wellness & Faith Community Health Services at Carle connects you and your faith community to needed healthcare and wellness support, taking a whole-person approach to health. In moments when fever, agony, and pain make it hard to pray, the suggestion of prayer that comes from merely holding the rosary—or better still, from the Crucifix at the end of it—is tremendous.
